"Combining The Terms Rx, Cannabis & Consumer Protection"

RX Cannabis Users Bill Of Rights

Problem:

With respect to the creation of public policy, there are no outlined "policy priorities or directives" for the issue of RX Cannabis.

Solution:

Establish a list of basic priorities entitled the RX Cannabis Users Bill Of Rights

Possible Support:

- Consumers
- Dr.'s
- Pharmaceutical
- NORML
- Law Enforcement

Possible Opposition:

- Consumers
- Dr.'s
- Pharmaceutical
- NORML
- Law Enforcement
- Patients

Arguments In Support:

- 1) The adoption of these principles will lay the foundation for a system of RX Cannabis distribution and use that benefits the user as much as the medical and insurance systems;
- 2) This "Bill Of Rights" will give users, law enforcement and the courts direction in which to create policy and practice.

Arguments In Opposition:

- 1) Courts have continually curtailed the use of RX Cannabis.

Language: Concepts outlined below

- 1) Consumers and Users shall be provided with the highest quality product at the lowest possible price.
- 2) Law Enforcement support and assistance shall be afforded to users of the RX Cannabis product.
- 3) Packaging that explains what your buying and protects the shelf life of your purchase of RX Cannabis.
- 4) Patient education on the proper use and growth of RX Cannabis.
- 5) No Taxation of RX Cannabis Products used by patients.
- 6) An easy and safe paperwork process that protects your privacy.
- 7) Standards and definitions that protect plant genetics.
- 8) Insurance companies recognize prescriptions.
- 9) A variety of products from which to choose from.
- 10) Whenever necessary, the ability to consume RX Cannabis in public.
